

Notification of a pregnancy and statement covering the periods of statutory maternity leave as established by German maternity leave legislation (Mutterschutzgesetz - MuSchG)

updated: 29.11.2022

Surname: _____

Forename: _____

E-Mail: _____

Declaration

Pregnancy Estimated date of delivery: _____

Breast feeding period

Name of class professor: _____

In order to be able to conduct a risk assessment and develop the necessary protective measures, the HFBK will inform your class professor and the workshop manager of the workshops which you state as using during your pregnancy or breast feeding period, about your pregnancy / breast feeding period and the results of the risk assessment.

To be able to use the Parents and Child room (K18 Le) I agree that Prof. Dr. Anja Steidinger is to be informed of the fact of my pregnancy or breast feeding period. This consent is provided voluntarily and can be withdrawn at any point without the need to specify grounds.

yes

no

The HFBK recommends that you also inform the teachers of the other classes which you attend of your pregnancy or breast feeding period.

I agree to my e-mail address being included in the distribution list " study with child "
(Prof. Dr. Anja Steidinger and Prof. Heike Mutter):

yes

no

Consent to participate in studies

I hereby declare that I wish to participate in my studies during the statutory maternity leave period:

- 6 weeks **before** delivery
- 8 weeks **before** delivery
- 6 weeks **before** and 8 weeks **after** the date of delivery

Waiver declaration of statutory maternity leave

During pregnancy and the breast feeding period, I am prepared and willing to

- Participate in study **until 22.00**
- Participate in study on **Sundays and public holidays**

Please note: In the event of premature birth, multiple births and cases in which a disability of the new-born child as defined by § 2 section 1 sentence 1 *Neunten Buches Sozialgesetzbuch* is diagnosed by a doctor within eight weeks of delivery, the period of maternity leave will amount to 12 weeks after delivery. Should either a risk assessment performed in accordance with § 10 MuSchG or a medical certificate issued in accordance with § 16 MuSchG result in a partial or complete prohibition to study, this outcome will render the waiver declaration ineffective as protection for both yourself and/or your child. You can revoke this declaration in writing at any time.

Hamburg, date _____
