# Festival & Symposium

## Non-Knowledge, Laughter and the Moving Image

November  
24–27, 2022,  
HFBK

Hamburg,  
ICAT, Kunstverein  
Harburger  
Bahnhof

As the final part of the artistic research project Non-Knowledge, Laughter and the Moving Image we invite you to screenings, performances, talks and discussions that explore the potential of moving image and the (human and non-human) body to overturn our habitual course and change the dominant order of things. During the four days in Hamburg we will explore ways in which we, organisms, bodies, technologies and environments communicate beyond instrumental language, subjectivity and reason, to experience what moving images and bodies can do and how they can teach us about the limits of our thinking. The project is led by Annika Larsson and funded by the Swedish Research Council and is realized in collaboration with The Royal Institute of Arts in Stockholm and the Hochschule für Bildende Künste Hamburg.
